Vishal Rawat

Full Stack Developer — ASP.NET Core, Angular

Ahmedabad, Gujarat, India | vishalrawatssr@gmail.com | linkedin.com/in/vishal-rawat-b82358212
github.com/vishalrawat4873 | Portfolio: vishal-rawat.vishalrawatssr.workers.dev

Summary

Full Stack Developer with about 1 year of experience (including an internship) shipping features to live production systems for US-based clients. Strong in **C#, ASP.NET Core, Angular, and SQL Server**, with hands-on work in multi-tenant SaaS, REST APIs, JWT/role-based security, and Azure Blob Storage.

Technical Skills

Languages: C#, TypeScript, JavaScript, SQL / T-SQL, HTML5, CSS3/SCSS, JScript
Backend: ASP.NET Core, Web API, MVC, Web Forms, Classic ASP, EF Core, LINQ, REST APIs
Frontend: Angular, RxJS, Reactive Forms, Angular Material, Bootstrap 5, jQuery
Database & Cloud: SQL Server, SSMS, Stored Procedures, Azure Blob Storage, Cloudflare Workers
Security & Tools: JWT, RBAC, Swagger, Postman, Git, GitHub, Visual Studio, VS Code

Professional Experience

Full Stack Developer (Junior Software Engineer) **Dec 2025 – Present**
Evince Development *Ahmedabad, Gujarat*

- Engineered features for a **multi-tenant SaaS platform** using **Classic ASP, ASP.NET Web Forms (C#), and SQL Server**, with organization-scoped data access and privilege-based views.
- Developed an **audio transposition module** (NAudio, SoundTouch) with storage in **Azure Blob Storage**, plus a **PDF merge utility** (iTextSharp).
- Implemented **drag-and-drop ordering** (SortableJS) and built an **80-case JavaScript test suite** for a core page.
- Resolved production bugs, optimized **SQL Server queries**, and contributed to ASP.NET Core and Angular features via code reviews and Git workflows.

Full Stack Developer Intern **Aug 2024 – Nov 2024**
Evince Development *Ahmedabad, Gujarat*

- Built a secure **Admin Panel backend** with ASP.NET Core Web APIs (**Clean Architecture**), **JWT authentication**, and role-based access control.
- Designed responsive UIs with **Angular, TypeScript, and Reactive Forms**; tested APIs with **Postman and Swagger**.

Projects

Church Management SaaS | *Classic ASP, Web Forms, SQL Server, Azure* **Jan 2026 – Present**

- Core modules for a multi-tenant platform covering team scheduling, media management, and event planning with role-gated access.

School Management System | *ASP.NET Core, Angular, SQL Server, JWT* **Dec 2025 – Present**

- Built REST APIs and Angular components with role-based auth and data access via **EF Core and LINQ**.

Personal Portfolio | *Angular 18, TypeScript, Cloudflare* **Live | GitHub**

- Responsive app with **lazy-loaded routing** and auto-deployment from GitHub to Cloudflare Workers on every push.

Course Platform | *Angular, TypeScript, Bootstrap* **Live | GitHub**

- Admin dashboard secured with **Angular Route Guards** and a Reactive Forms login.

Education

B.Tech in Computer Science Engineering **2022 – 2026**
Shivalik College of Engineering *Dehradun, Uttarakhand*

Certifications

Udemy: C#, .NET Core, OOP & LINQ (Aug 2025) | ASP.NET Core 10 (Nov 2025) | **NCC:** "A" Grade Certificate
